Online Education Using Learning Objects
By Rory McGreal, University of Athabasca, Canada

E-learning is becoming integral to on-site education in universities worldwide, and the rapid explosion of interest in the subject means that this timely, cutting edge book will be an instant and indispensable resource. Among educators, the development of reusable learning objects made accessible via the Internet is ever more important to teaching and learning at university.

This book provides a comprehensive look at state of the art online education, and presents advice on the creation, adaption and implementation of learning objects and metadata. Including articles written by some of the leading innovators in the field, this book takes the reader through:

- designing effective learning objects
- creating learning objects
- transforming existing content into reusable learning objects
- building a metadata management system.

This book will be essential reference material for course developers at university, postgraduate students, teachers and learners in the field of e-learning.

Contents:

Part 1: Learning Objects and Metadata
1. Learning Objects: Resources for Learning Worldwide S. Downes
2. A First Step Towards a Theory of Learning Objects M. Sosteric and S. Hesemeier
3. Modeling Units of Learning from a Pedagogical Perspective R. Koper & R. van Es
4. Some Objections to Learning Objects N. Friesen
5. Learning Objects Revisited E. Duval and W. Hodgins

Part 2: Creating Learning Objects
6. Designing Effective Learning Objects M. Ally
7. Creating Learning Objects S. Downes
8. Signs and Objects: Modeling Learning Objects on Peirce’s Theory of Signs P. Polsani
9. Transforming Existing Content into Reusable Learning Objects M. Doorten, B. Giesbers, J. Janssen, J. Daniels and R. Koper
10. The Language of Flexible Reuse: Reuse, Portability and Interoperability of Learning Objects Or Why Learning Design P. Sloep

Part 3: Contextualization of Learning Objects
12. Context and the Role of Standards in Increasing the Value Of Learning Objects R. Robson
13. Context and Metadata for Learning, Education and Training J. Mason
15. Moving Towards Further in E-Learning Standardization: Towards a Reference Architecture L. Anido
16. Reusable Learning Resources: Building a Metadata Management System Supporting Interoperable Learning Object Repositories D. Sampson and P. Karampiperis

Part 4: Learning Object Profiles, Applications and Models
19. The Edutella P2P Network: Supporting Democratic E-Learning and Communities of Practice M. Nilsson
20. The Explor@2 Learning Object Manager G. Paquette, A. Miara, L. Guerette and K. Lundgren-Cayrol
21. The MERLOT Model and the Scholarship of Teaching N. Kestner

Part 5: The Semantic Web, Intelligent Agents and the Future
22. The Semantic Web and Metadata Decentralization S. Palmer
23. Beyond Educational Objects to Education Modeling Languages T. Anderson and A. Petrinjak
25. Knowledge Modeling for Developing Course Design Agents F. Lin
