What is a tag?

A tag is simply a word you can use to describe a bookmark. Unlike folders, you make up tags when you need them and you can use as many as you like. The result is a better way to organize your bookmarks and a great way to discover interesting things on the Web.

What is a tag cloud?

A list of tags where size reflects popularity.

(Millen & Feinberg, 2006;
Millen, Feinberg, & Kerr, 2006)

Aesthetics

Wordle.net cloud for ECTEL08 tweets

<http://www.flickr.com/photos/27692232@N04/2869229742/>

Interactions

Elastic Tag Cloud (Stefaner, 2007)

http://well-formed-data.net/experiments/tag_maps/

A decorative word cloud in the top right corner of the slide. The words are arranged in a diagonal pattern, with some words in a larger, bolder font than others. The words include: hardware, linux, open source, perl, news, museum, performance, philosophy, photos, policy, project, requirements-engineering, servers, server, short, study, specifications, software, semanticweb, sensors, and usab.

Personal Benefit?

A decorative background in the top right corner of the slide, featuring a collection of technical and academic terms in various colors and sizes, including 'learningtechnology', 'opensource', 'perl', 'photos', 'policy', 'project', 'research', 'specifications', 'software', 'sensors', 'server', 'shortcuts', 'study', 'usab', 'innovation', 'instantmessaging', 'java', 'literatu', 'mobilelearning', 'optimiza', 'philosophy', 'requirements-engineering', 'semanticsweb', 'servers', 'shortcuts', 'study', 'usab', 'innovation', 'instantmessaging', 'java', 'literatu', 'mobilelearning', 'optimiza', 'philosophy', 'requirements-engineering', 'semanticsweb', 'servers', 'shortcuts', 'study', 'usab'.

Effects on Learning?

again ...

A PERSONAL TAG CLOUD TO STIMULATE REFLECTION

Design Study

very small user base

concepts, not hypotheses

exploration, not validation

Purpose of the Study

effects on reflection and learning

practice driven hypothesises

ReScope Design Version 1

I use **del.icio.us** for bookmarking. Below you find the tags I use.

The tag cloud shows the relevance and the recency of those topics that I find interesting. The font-size of each tag indicates its relevance, while the color tells you my current interest for the tag.

ajax ambientcomputing art austria blog bugfix call casestudies
coding comic competence computeranimated computergames
computerhistory computerscience conferences contemporary creative
critique culture demos design desktoputilities dictionaries distributions

[help]

Enter a Del.icio.us nick name. A good start is your own nick. If you don't have a del.icio.us account (yet), you may want to try the default (phish108).

By the way, the colors tell you how frequently a tag has been used with the last 20 bookmarks of the user.

Grey means that the tag wasn't used, recently; black means that it has been used only once; and strong red means that the tag was assigned to almost every bookmark. Find out more about the color code on our [help pages](#).

The font size of each tag tells you how often the tag has been used in general.
